

**Trish Thompson  
Fine Art Professor**

I was impressed by the variety and quality of work being done by women in Florida. Thanks to the organizers and applicants for their efforts. It was a pleasure to work with the other jurors and to participate in this first annual event.

Thank you for a most gratifying journey!

I was truly impressed by the substance and originality of so many of the works and especially appreciated the evident care invested in making them--what poet Robert Frost once called "the pleasure of taking pains";

The privilege of serving as a juror for the Florida Museum for Women Artists' first-ever competition afforded me a welcome "bus-man's holiday" and not-a-little visual delight!

**John W. Streetman III  
Executive Director, Evansville Museum**

While it is an honor to be selected as a juror for the 1st annual competition, this role is never an easy task. Hundreds of entries in almost as diverse variety of mediums are delightful as they are challenging. Nevertheless, it is inspiring to see the current work, especially of women; and the results of this show no doubt will lead a positive example for competitions to come.
